

6516209616.txt

Why is it necessary for the government to interfere with our freedoms? It is my choice, whether to listen to free Radio with thousands of commercials or to listen to my XM radio that I'm willing to pay for which contributes to the tax base and continues to support the notion of free enterprise. Whether this is a publicly owned company or privately owned, it is not the governments business to interfere with my basic freedoms,. one of which is, freedom of choice.

Please reject NAB's petition 04-160. Keep freedom alive.

Gary C. Kohring
